

Email Filing User Manual

May 2012

Email Filing with *BluWave* crm

This new feature allows you to automatically file email from your Email In- and Outboxes by simply CCing or BCCing the BluWave Server email address. Tracking customer relationships and sales in progress is now easier than ever before with *BluWave* crm.

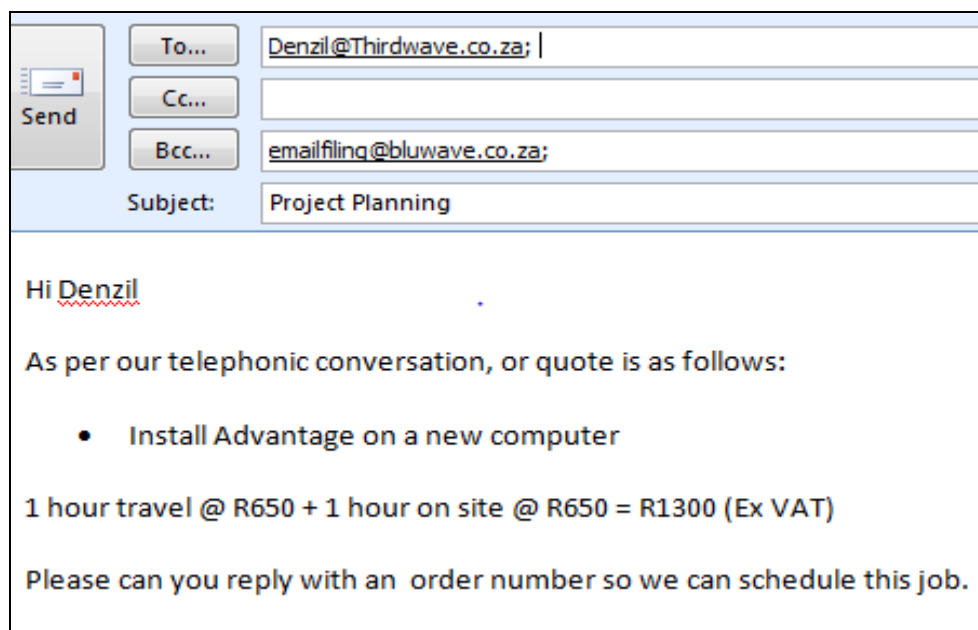

The filed emails will be stored as part of the activity history of the customer in chronological order with your telephone call and face to face call reports. You can file email from any email software program – either desktop email clients or web-based email client software including: Outlook, Lotus Notes, GroupWise, Google Mail.

How To Use the Email Filing Function

1. Saving an Outgoing Email

If you are sending an email from your email client to one of your contacts and want to record the email in BluWave simply **BCC** the email to the following email address: emailfiling@bluwave.co.za *BluWave* crm will then save the email as a completed activity under the client.

NB: To save successfully, the contact person needs to be already loaded on BluWave with this email address.

Hi Denzil

As per our telephonic conversation, or quote is as follows:

- Install Advantage on a new computer

1 hour travel @ R650 + 1 hour on site @ R650 = R1300 (Ex VAT)

Please can you reply with an order number so we can schedule this job.

The email will then be saved as follows under the client's completed activity panel:
